

DC 12 Volt APU

MEC-L70-DC-120

Standard Features

- Recoil start
- Self excited internally regulated
- Circuit breaker protected
- Booster cables included
- Roll cage protection
- Engine and generator close coupled
- EPA Certified

Options

- Weather cover
- Wheel kit

These DC generators are designed for a fast and simple solution to charge batteries. They are ideal for backup power for solar, wind and marine applications. Because of the portability of the unit, it can be used to maintain a fleet of construction equipment that need a starting boost. It can also be a reliable source of power for remote telecommunication towers. Their use of DC current helps eliminate failure due to AC-to-DC rectifiers or AC-to-DC battery chargers.

Specifications	
Engine Model	Yanmar L70
Rated HP	6.7 hp
RPM	3600
Weight	180 lbs
L x W x H	30 x 20 x 20"
DC alternator	120 amp
Application	12 volt
Charge Voltage	14.5

Powered by

YANMAR

DIESEL
